Instructions

Notice of Intent (NOI) for Storm Water Discharges Associated with Industrial Activity to be covered under a NPDES Permit

Who Must File a Notice of Intent Form?

Under the provisions of the Clean Water Act, as amended, (33 U.S.C. 1251 et. seq.; the Act), except as provided by the permit, Federal law prohibits discharges of pollutants in storm water from certain Industrial activities without a National Pollutant Discharge Elimination System Permit. Owners / Operator(s) of certain Industrial Facilities, must submit an NOI to obtain coverage under an NPDES Storm Water Industrial General Permit.

If you have questions about whether you need a permit under the NPDES Storm Water program, or if you need information as to whether a particular program is administered by EPA or a State agency, write to or telephone the Stormwater Coordinator at (775) 687-9429.

Where to File NOI Form

Stormwater Coordinator 3173
Bureau of Water Pollution Control
Nevada Division of Environmental Protection
333 W Nye Lane
Carson City NV 89706

Do NOT submit Storm Water Pollution Prevention Plans (SWPPPs) with the NOI. SWPPPs are required to be stored and maintained at the Facility.

When to File

This form must be filed at least 2 days before to commencement of facility operations.

Completing the Form

OBTAIN AND READ A COPY OF NEVADA'S STORM WATER INDUSTRIAL GENERAL PERMIT.

To complete this form, type or print in the appropriate areas only. If you have any questions on this form, call the Stormwater Coordinator at (775) 687-9429.

Facility Information

Enter the official or legal name and complete street address, including city, county, state, zip code, and phone number of the facility.

Complete facility information must be provided for permit coverage to be granted.

The applicant must also provide the latitude and longitude of the facility in degrees, minutes, and

seconds to the nearest 15 seconds. The latitude and longitude of your facility can be located on USGS quadrangle maps. Quadrangle maps can be obtained by calling 1-800 USA MAPS. Longitude and latitude may also be obtained at the Census Bureau Internet site:

<http://www.census.gov/cgi-bin/gazetteer>

Latitude and longitude for a facility in decimal form must be converted to degrees, minutes and seconds for proper entry on the NOI form. To convert decimal latitude or longitude to degrees, minutes, and seconds, follow the steps in the following example.

Convert decimal latitude 45.1234567 to degrees, minutes, and seconds.

- 1) The numbers to the left of the decimal point are degrees.
- 2) To obtain minutes, multiply the first four numbers to the right of the decimal point by 0.006. $1234 \times .006 = 7.404$.
- 3) The numbers to the left of the decimal point in the result obtained in step 2 are the minutes: 7'.
- 4) To obtain seconds, multiply the remaining three numbers to the right of the decimal from the result in step 2 by 0.06: $404 \times 0.06 = 24.24$. Since the numbers to the right of the decimal point are not used, the result is 24".
- 5) The conversion for 45.1234 = 45_7' 24".

Receiving Water: Enter the name of the closest water body which receives the facilities storm water discharge.

Facility Owner/Operator (Applicant) Information

Provide the legal name, mailing address, and telephone number of the person, firm, public organization, or any other entity that meet either of the following two criteria:

- (1) They have operational control over construction plans and specifications, including the ability to make modifications to those plans and specifications; or
- (2) They have the day-to-day operational control of those activities at the project necessary to ensure compliance with SWPPP requirements or other permit conditions. Each person that meets either of these criteria must file this form. Do not use a colloquial name. Correspondence for the permit will be sent to this address.

Enter the appropriate letter to indicate the legal status of the owner/operator of the project:

Certification

Federal Statutes provide for severe penalties for submitting false information on this application form. Federal regulations require this application to be signed as follows:

For a corporation: by a responsible corporate officer, which means:

- (i) President, secretary, treasurer, or vice president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions, or
